

Jesse Emmanuel Basco

Full-Stack Software Developer

jesseemmanuel@gmail.com • 09978366415 • <https://jesse-dev.vercel.app/>

Full-stack software developer with 3+ years of experience architecting and deploying scalable web applications across React, Next.js, Laravel, and Nest.js. Specialized in RESTful API development, AWS cloud infrastructure, and cross-functional collaboration within Agile environments. Combines frontend excellence with backend reliability to deliver robust, user-centric solutions while maintaining high code quality standards.

EXPERIENCE

Frontend Developer

Tidewrk

September 2025 - July 2026

- Maintained and optimized client-facing web applications using Next.js and TypeScript, ensuring high performance and adherence to code quality standards across production environments
- Built and enhanced application features leveraging React Hook Form, Zod, React Query, and shadcn/ui, delivering robust form validation, seamless API integration, and intuitive user interfaces
- Collaborated with cross-functional teams in Agile Scrum environment to deliver features and resolve issues efficiently, coordinating via Jira and Microsoft Teams

Software Engineer

KodaKollectiv

October 2023 - September 2025

- Built and integrated RESTful APIs using Nest.js, Laravel, Django, and Prisma, enabling seamless data exchange across distributed applications and supporting multiple frontend implementations
- Deployed and optimized backend applications on AWS (Elastic Beanstalk and RDS), improving system scalability and reliability for production environments
- Collaborated with frontend developers using React and Next.js to ensure efficient API integration and optimal application performance across the development lifecycle

WordPress Developer

Human Incubator Inc.

July - September 2023

- Maintained and enhanced client WordPress sites by resolving performance bottlenecks and implementing security improvements to protect business-critical infrastructure
- Customized themes and plugins to align websites with client branding and specific business requirements, delivering tailored digital solutions

Tech Support & WordPress Developer

Govesmart Solutions Inc.

2021 - 2023

- Developed and maintained WordPress websites with cross-browser compatibility and responsive design across all device sizes, meeting diverse

TECHNICAL SKILLS

- React.js
- Next.js
- Nest.js
- Laravel
- Django
- PHP
- HTML
- CSS
- Tailwind CSS
- Bootstrap
- React Hook Form
- React Query
- Zod
- shadcn/ui
- HeroUI
- MySQL
- PostgreSQL
- Prisma
- AWS (Elastic Beanstalk, RDS)
- Linux
- Dokku
- WebSockets
- Socket.io
- PusherJs
- Git
- GitHub
- Bitbucket
- Jira
- REST APIs
- WordPress

SOFT SKILLS

- Agile Scrum
- Cross-functional Collaboration
- Problem-Solving

client branding requirements

- Managed social media accounts to increase brand visibility and drive web traffic to client platforms

Freelance Web Developer

Self-Employed

2021 - 2022

- Designed and developed responsive websites for small businesses using WordPress, React, and Laravel, delivering custom solutions tailored to client specifications
- Implemented custom API integrations that enhanced site functionality and increased user engagement across client platforms

Junior Systems Engineer

Apollo Technologies Inc.

September 2020 - March 2021

- Configured and maintained Linux servers with high-availability setups, supporting enterprise-level systems and critical infrastructure
- Implemented MySQL database synchronization and replication protocols, ensuring data consistency and minimizing system downtime
- Assisted in troubleshooting and system monitoring to reduce incident response time across production environments

EDUCATION

Bachelor of Science in Information Technology

University of Science and Technology of the Philippines

2020

- Adaptability
- Technical Documentation
- Team Communication
